**FOR 2013-2015 BUDGET -- NOT READY FOR INTRODUCTION**

**AN ACT** ...; **relating to:** sale or lease of state-owned real property, contractual operation of state facilities, and management of state-owned heating, cooling, and power plants.

*Analysis by the Legislative Reference Bureau*

**STATE GOVERNMENT**

**OTHER STATE GOVERNMENT**

Currently, with certain exceptions, DOA may sell or lease state-owned real property if DOA determines that the sale is in the best interest of the state and the Building Commission approves the sale. Any sale may be either on the basis of public bids, with DOA reserving the right to reject any bid in the interest of the state, or negotiated prices and need not reflect fair market value. Also currently, various state agencies have authority to sell real property under their jurisdiction subject to various conditions and limitations. The proceeds of any sales are deposited, credited, or used in various ways as provided by law. DOA's authority generally does not apply to property that another agency has authority to sell. Also, DOA's authority does not operate to permit the closure or sale of any facility or institution the operation of which is required by law. DOA's authority also does not extend to property under the jurisdiction of the Board of Regents of the University of Wisconsin System and certain property under the jurisdiction of DHS at the Northern Center for the Developmentally Disabled. Except as otherwise provided by law, any sale by DOA

may be with or without the approval of the state agency that has jurisdiction over the property. The net proceeds of any sale by DOA are used to retire any outstanding public debt that was incurred to acquire, construct, or improve the property and if the property was acquired, constructed, or improved with federal financial assistance, the proceeds must be used to repay the federal government to the extent required by federal law. If the property was acquired by gift or grant or with gift or grant funds, DOA must adhere to any restriction governing use of the proceeds. DOA must use any remaining net proceeds to retire other outstanding public debt.

Currently, with certain exceptions, the Building Commission may also sell state-owned real property where this authority is not given to another state agency by law, and may transfer land under its jurisdiction among agencies. Sales may be accomplished in a manner similar to the manner that sales are conducted by DOA, except that sales of surplus land having a value of at least \$20,000 are subject to the approval of JCF. However, the Building Commission does not have the authority to sell a parcel of state-owned real property once DOA notifies the commission that an offer of sale or sale with respect to the parcel is pending. If a sale is not completed and no further action is pending with respect to a parcel of property, the authority of the Building Commission to sell the property is restored. The net proceeds of any sales by the Building Commission must be used to retire any public debt that was used to acquire or construct improvements on the property being sold. The remaining net proceeds must be deposited in the budget stabilization fund. Current law also directs the Building Commission to compile biennially and transmit to JCF an inventory of state-owned surplus land.

This bill permits DOA or the Building Commission to sell or lease any state-owned real property unless prohibited by the state or federal constitution or federal law. DOA's sales are subject to the approval of the Building Commission. Under the bill, any sale may be either on the basis of public bids, with DOA or the commission reserving the right to reject any bid in the best interest of the state, or on the basis of negotiated prices as determined through a competitive or transparent process. The bill does not apply to sales conducted to enforce an obligation to this state. The bill retains most of the existing exemptions from DOA's sales authority but eliminates the current exemption of the Board of Regents of the University of Wisconsin System and DHS (with respect to the Northern Center) to sell or lease state-owned real property independently of DOA. Under the bill, if DOA or the Building Commission notifies the Board of Regents or DHS that an offer of sale, sale, or lease is pending with respect to a parcel of property, the Board of Regents or DHS does not have authority to sell or lease that property. The bill eliminates the current exception that exempts sales that would necessitate the closure of a facility or institution which is provided for by law. However, the bill does not repeal any statutes that require the operation of any facilities or institutions. Under the bill, if DOA or the Building Commission sells all the real property that is currently used to operate a facility or institution, the facility or institution would need to continue in operation. Under the bill, except with respect to exempt property, if any agency has authority to sell or lease real property under any other law, the authority of that agency does not apply after DOA or the Building Commission notifies the agency in

writing that an offer of sale or sale, or a lease agreement, is pending with respect to the property. If the sale or lease is not completed and no further action is pending with respect to the property, the authority of the agency to sell or lease the property is restored. Under the bill, DOA and the Building Commission must first use the net proceeds of any sale or lease to retire any public debt that was used to finance the acquisition, construction, or improvement of the property that is sold. Thereafter, DOA and the Building Commission must use the net proceeds of any sale or lease to pay the costs of federal tax law compliance applicable to the debt. The bill directs DOA and the Building Commission to use the remaining net proceeds of any sale or lease, subject to current requirements, to retire any revenue obligation debt in the fund that was used to acquire, construct, or improve property that was sold and thereafter to pay the costs of federal tax law compliance applicable to the debt, and thereafter, retire other similar revenue obligations. Thereafter, DOA and the Building Commission are directed to use any remaining net proceeds to retire other outstanding public debt. If other outstanding public debt is redeemed, the bill specifies factors to consider in deciding which debt to redeem. The bill provides that if any property that is proposed to be sold by DOA or the Building Commission is co-owned by a nonstate entity, DOA or the commission must afford to the co-owner the right of first refusal to purchase the share of the property owned by the state on reasonable financial terms established by DOA or the commission.

The bill also provides that if DOA sells or leases a state-owned heating, cooling, or power plant, DOA may contract for the operation of any function that is performed by the state on the property. Currently, DOA or any state agency to which DOA delegates authority may enter into a contractual services agreement if the services can be performed more economically or efficiently by contract than by the state directly. The bill provides that this requirement does not apply to contracts with purchasers or lessees entered into by DOA under the bill. The bill provides that if DOA or the Building Commission sells or leases any real property, or if DOA contracts with a purchaser or lessee for the operation of any real property, that was under the jurisdiction of another state agency prior to the sale, lease, or contract, the agency must convey all systems, fixtures, or additional property interests specified by DOA or the Building Commission to the purchaser or lessee of the property on the terms specified by DOA or the Building Commission. The bill also provides that if DOA or the Building Commission sells or leases, or if DOA contracts with a purchaser or lessee, for the operation of a state-owned heating, cooling, or power plant that is under the jurisdiction of a state agency, the agency must convey all real and personal property associated with the plant to the purchaser or lessee on terms specified by DOA or the Building Commission. In addition, the bill provides that if DOA sells, leases, or contracts with a purchaser or lessee for the operation of any facility that is operated by a state agency before the effective date of the sale, lease, or contract, DOA may decrease the authorized full-time equivalent positions for the agency and may lapse or transfer appropriated moneys from any appropriation made to the agency, other than a sum sufficient appropriation, an appropriation of program revenues to the Board of Regents of the University of Wisconsin System, or an

appropriation of segregated or federal revenues, to account for discontinuance of the operation of the facility by the agency.

Finally, the bill modifies the authority of the Building Commission to sell or lease state-owned buildings, structures, and land to parallel the authority of DOA under the bill so that the authority includes property under the jurisdiction of the Board of Regents of the University of Wisconsin System and is not generally limited by sales authority given to state agencies, and so that distribution of sales proceeds is accomplished in the same manner as proceeds of DOA's sales are distributed. The bill deletes the current limitation that certain sales of surplus land are subject to approval of JCF. The bill directs each state agency, no later than January 1, 2014, and biennially thereafter, to submit to DOA an inventory of all real property under its jurisdiction together with the estimated fair market value of each property. Each agency must specifically identify any underutilized assets in the inventory. Under the bill, no later than July 1 following receipt of the inventories, DOA must obtain appraisals of all properties in the inventory that are identified by DOA for potential sale and submit to the Building Commission an inventory containing a location, description, and fair market value of each property identified for potential sale.

Currently, DOA has charge of, operates, and maintains the state capitol power plant and any power plants serving the state office buildings. Under the bill, DOA has charge of, operates, and maintains any heating, cooling, and power plants not operated by another agency or by a purchaser, lessee, or contractor.

If there is any outstanding public debt used to finance the acquisition, construction, or improvement of any property that is sold or leased under sub. (1), the department shall then provide a sufficient amount of the net proceeds from the sale or lease of the property for the costs of maintaining federal tax law compliance applicable to the debt.
